

**REMARKS**

This patent application presently includes claims 1-22, claims 23-62 having been canceled without prejudice. All subsisting claims stand rejected. These claims are believed to be in condition for allowance. This amendment supplements and amendment filed August 21, 2009.

This amendment supplements amendment filed August 21, 2009. After reviewing the application in anticipation of allowance, it was noted that a typographical error existed at the end of first sub-paragraph of claim 1. Clearly, "suitable for the second network" is a non-sequitor and erroneous. The present amendment corrects that error and should therefore be entered.

Should further questions arise, the examiner is requested to call the undersigned at the telephone number indicated below.

Respectfully submitted,

KAPLAN GILMAN & PERGAMENT LLP  
1480 Route 9 North, Suite 204
